

PUBLIC NOTICE
YOU HAVE A VOICE IN AIR POLLUTION CONTROL IN ARIZONA

The Arizona Department of Environmental Quality (ADEQ) proposes to issue Air Quality Control Permit Number 1000158 to El Paso Natural Gas Company (EPNG) for the operation of their Seligman compressor station. This facility is located 9 miles east of Seligman on Crookton Road, Seligman, in Yavapai County, Arizona. This proposed Permit will regulate emissions of the following types of air contaminants: sulfur dioxide (SO₂), volatile organic compounds (VOCs), nitrogen oxides (NO_x), carbon monoxide (CO), and formaldehyde.

El Paso Natural Gas Company provides natural gas transportation services for natural gas suppliers and owns and operates a large natural gas pipeline network. The Seligman Compressor Station is one of the several such stations that provide natural gas compression to the pipeline network. Compression is needed to maintain enough pressure in the pipeline to keep the natural gas flowing, and is accomplished at Seligman by one natural gas fired regenerative General Electric turbine engine.
